A photograph of a demolition derby track. Two cars are positioned on the track, surrounded by stacks of tires. The scene is set outdoors with trees and a building in the background. The image has a teal tint.

FUN AND EFFECTIVE TEAMBUILDING

Fun and effective teambuilding that strengthens the collaboration within your team

Teambuilding is something everyone can participate in – no matter what age, physical ability or experience level they have. Our professional instructors are used to working with companies and people with diverse prerequisites and they ensure an experience that is both a challenging and different – without pushing anyone past their limits.

Smart Drive is a communicative challenge that builds on a unique concept

Smart Drive focuses on communication and collaboration through fun and educational challenges. The challenges on the track will be tailored specifically to your needs and wishes.

Participants will get a thorough introduction to the challenges and the group will be observed by one or more experienced management consultants.

Teambuilding Smart Drive is structured as a competition where each team will compete against up to 4 teams at the same time. The team that excels at collaboration and makes the right choices will win the race and glory.

The race is run in cars where some are rebuilt to steer in the opposite direction and others will have the co-driver in charge of the pedals.

Is it a fun day? Absolutely!

Do you learn something? Definitely!

The experience from having to collaborate in the car and on the track is something you can take home with you and apply directly to your daily work.

The day will give you

- A common image of what you do when you perform at your best
- A strengthened team spirit and commitment
- A better understanding of each other as individuals
- Attention to the dynamics within the group and the different roles
- Inspiration for further team development
- The link from race track to workplace
- Between each challenge on the track the group will reflect on what contributed to solving the challenge successfully banen

Why work with cars on a track?

When you turn the steering wheel to the right and the car goes to the left or when you steer the wheel but the pedals are left to your co-driver, you are forced to communicate and collaborate in this different kind of teambuilding.

You will have to react quickly to the car's behaviour and needs. This means that the thoughts, feelings and behaviour that you exhibit on the track becomes spontaneous, honest and committed – and it is hereby an effective educational tool. Responding to change is a known challenge for all companies but it can be hard to stage in a meeting room. Being in the car creates a perfect environment for training our ability to respond to change.

Smart Drive also provides good metaphors for efficient conflict handling when you are back in the workplace. The interaction on the track gives a new dimension to your teambuilding. You practice and work on your internal collaboration while getting precise and honest feedback on the track.

This unique concept is developed and based on a solid theoretical and practical foundation. Everyone can participate on the track and we make sure that everyone has a role to play. Those who do not wish to drive can be co-drivers.

Customers range from large to small private companies to municipal and public workplaces. Among our customers are a dental clinic, craftsmen, a law firm, pedagogues from a daycare institution, sports teams etc.

Experienced management consultants will guide you safely through the day. Our consultants have practical experience and solid theoretical knowledge which enables them to manage the process and to organise a program that meets your specific needs and challenges.

We also offer other outdoor teambuilding activities that involve cars.

Release your inner speed demon while racing in the famous Djævleræs

Now you get the chance to test your speeding abilities in a fun race where you both get to drive the car and be the co-driver.

Adrenaline and petrol is the driving force and you feel the excitement in your right foot when you impatiently await the start signal. Before you know it the cars are roaring out of the gates and now it's all about being first at the turn up ahead.

- welcome to an experience in the fast lane -

Car Football

We play in 2 teams with 3-4 cars on each team (2 participants in each car). It is now up to the teams to collaborate on getting the 120 cm ball into the opponent's goal as many times as possible in 2x5 minutes.

This challenge strengthens collaboration as the thoughts, feelings and behaviour expressed on the track will be spontaneous, genuine and committed – which makes Car Football an effective learning tool.

However, there are rules just like in football, so you will get a penalty for driving into the other cars.

A soccer ball with white and black panels is positioned on a green grass field. The background is a soft-focus green field with a bright light source in the upper right corner, creating a bokeh effect.

Coming soon

Practicalities

The program will be planned according to your needs and can last for half or a whole day. It can either be a single workshop or part of a bigger team development process.

We have good parking facilities. We offer catering and charming indoor and outdoor facilities.

It is unfortunately NOT allowed to bring your own catering, but it can be ordered through us.

Dresscode

Participants should wear casual clothes that can withstand dirt and soft shoes.

Filming

We offer filming on the day. All cars have cameras and a professional videographer will film the day's events. Filming, editing and DVD production is offered at 4.500,- DKK ex. VAT.

It is allowed to film the day yourselves however this is at your own risk.

All events are closed to the public!

OBS

It is important that the person driving the car has or has had a driver's license for a regular car.

All participants must take out an insurance through us at the price of 100,- DKK per person. The insurance is valid for one calendar year from the date it has been taken out.
